EuLED Alternative Products  
Venus LED Ceiling Tile

32 Watt AC  
(600mm by 600mm)

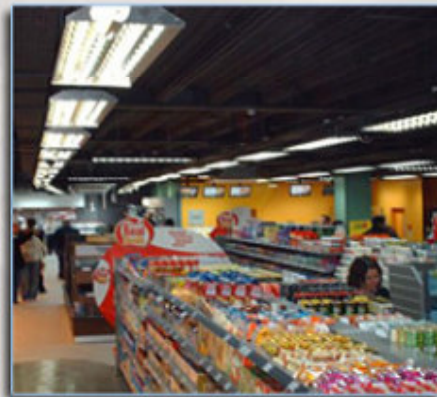

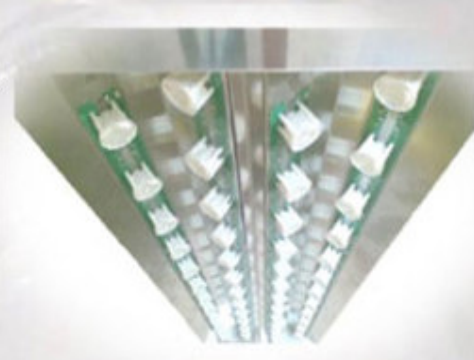

48 Watt AC  
(600mm by 600mm)

64 Watt AC  
(1200mm by 600mm)

96 Watt AC  
(1200mm by 600mm)

The Venus 48 Watt LED Strip Light is a replacement for traditional fluorescent tube lighting systems, with connection to a 230 volt 50Hz supply or a 110 volt 60Hz supply.

This LED light fitting has been designed to illuminate pure white light onto shelving and racking to assist in the visibility of the displayed stock. The pure white light enhances the colours and wording on packaging allowing customers and employees to locate and select products quickly and easily.

This LED lighting is ideally suited for lighting areas such as supermarket aisles, retail outlets, store rooms, warehouses and all locations where racking and shelving is used.
