

# EuLED - Jupiter 24 Watt LED Street Lighting

## EuLED - Jupiter Range

Jupiter 24 Watt AC  
Jupiter 24 Watt DC

Jupiter 36 Watt AC  
Jupiter 36 Watt DC

Jupiter 48 Watt AC

The Jupiter 24 Watt Luminaire is a street and area lamp ready for connection to either AC mains power supply or a Mercury solar power management unit with timer controller which provides a flexible lighting solution where mains power is not available.

The Jupiter 24's applications range from lighting roads to car parks, pathways and public areas, and when used in conjunction with our Mercury solar powered unit, the costs associated with mains powered lighting can be avoided.

## Specifications: Jupiter 24 Watt Street Lamp

Input Voltage AC	230V AC 50Hz or 110V AC 60Hz
Input Voltage DC	12 Volt
Power Consumption AC	28 Watts
Power Consumption DC	24 Watts
Operating Temperature	-20 degrees C to + 70 degrees C
Total Light Output	Typically 1,320 lumens
Correlated Colour Temperature	4500 to 8000 degrees K
LED Lifespan	Typically 80,000 hours
Turn On Time	100ns
Weight	8Kg
Unit Colour	Silver
Mounting	Supplied with clamps for 56mm pole standard.
